

Aegle Advisors

Is Now Offering

Physical Therapy Practice Review

GUARANTEED TO BE COMPLETE IN TWO WEEKS!

A thorough analysis based on our approach that focuses on statistical and financial analysis as well as interviews with key stakeholders.

Available November 18, 2013 through January 31, 2014
\$999 (normally \$2,500)

We will offer our findings and recommendations in a written report that your practice will be able to implement in the following areas:

- 1. Clinic Productivity** - Assess the effectiveness and efficiency of the clinical areas based on patient demand, clinic productivity and scheduling compared to optimal flow and queuing.
- 2. Practice Revenue Cycle** - Review of the revenue cycle business drivers from initial patient contact to final adjudication of payment for all services, including: accounts receivables aging, payer mix, AR days analysis, write-offs, bad debt, billing, charge capture, copay collections, payment posting and collection management and reporting.
- 3. Practice Operations** - Assess the effectiveness, efficiency and performance of the practice based on both the clinical and overhead areas through financial statements and related volume and statistics.

At Review completion, you will be able to:

- *Understand how much revenue your practice is losing*
- *Identify if you are maximizing revenue per visit*
- *Maximize clinic operational efficiency*
